

Remarks

The application has been amended by incorporating recommended United States Patent and Trademark Office headings and subheadings, and conforming numerical and grammatical usage to U.S. practice. An Abstract is attached on a separate page. No new matter has been added.

The claims have been amended to U.S. format, eliminating multiple dependent and multiple/multiple dependent claims. "Use" claims have been rewritten as process claims directed to the respective uses, since the U.S. does not allow pure "use" claims.

The PCT examining authority has indicated that the claims meet the PCT unity of invention standards, and also meet the requirements of novelty, inventive step, and industrial utility. Early favorable consideration is respectfully requested.

Respectfully submitted,

Kurt Stark
